

Microsoft Business Applications Consultant

Location: Remote (U.S.)

Salary: TBD (based on experience)

BluePrint is looking for a Full-Time, strategic Dynamics 365 Functional/Technical consultant to lead the transformation process for our clients. As a value-added partner to our clients, we provide strategic thought leadership and Business Process Mgmt. advise and services. This position will assist in this business process transformation journey by providing business and technical solutions involving the Microsoft Power Platform framework, with primary focus on Dynamics 365.

Industry focus vary, from Healthcare & Life Sciences, to Manufacturing, to Energy, to Wealth Mgmt. Solutions equally stripe Sales Force Automation, Service Automation to Project Service Automation. Successful candidate will be able to provide business focused design leveraging toolset from Microsoft Business Applications.

Required Knowledge, Skills & Abilities

- Bachelor of Science degree in Computer Science, Computer Engineering, Information Systems or other similar/related technical discipline
- 4-7 years of experience in a functional or technical consulting role
- Demonstrated experiences with Dynamics 365 Sales, Service, Marketing, PSA, Field Services and/or Business Central
- Base understanding of Power Platform and related technologies
- Excellent written and verbal communication skills
- Strong interpersonal and team building skills with an ability to work collaboratively within a team
- Strong organizational skills and an ability to multi-task effectively and prioritize work efforts
- Strong problem solving skills and the ability to overcome difficult challenges and take accountability for actions/results
- Strong client service focus and the ability to effectively communicate with client sponsors
- Travel is estimated at 50% for client projects – domestically and/or internationally

Role Responsibilities

- Enhance BluePrint BPT clients' needs leveraging implementation methodologies and Microsoft toolsets to build purposeful solutions
- Deliver projects using BluePrint BPT Operations Framework, methodologies, tools, and templates, primarily in the functional realm, but potentially more technical, as determined by project team
- Drive client whiteboards and lead discussions in core area of expertise
- Summarize/document program requirements utilizing BluePrint documentation templates and project methodology, as directed
- Define BluePrint functional design and technical design documents
- Provide key project status reports to the client and BluePrint management on a weekly basis
- Work independently and/or as a part of a BluePrint BPT project team
- Report time and expenses in corporate and client/partner systems on a timely and accurate basis – weekly at a minimum
- Actively participate in the pursuit of recognition for the BluePrint brand
- Develop and maintain required technical/professional skills and certifications as defined by Management and as aligned with the BluePrint Skills Matrix
- Participate in internal cross-training and mentoring programs
- Accept responsibility and be accountable for actions

Preferred Skills

- Working knowledge and/or ability to research, learn and champion new technologies related to;
 - Power Platform (Power Apps, Power BI, Automate)
 - Fast Health Interoperable Resources (FHIR), Azure, etc.
- Microsoft technical certification in related competency areas

Employment Benefits

- United Health Care Choice +
 - 75% Premium Provided
 - Plan of Choice
 - Medical/Vision/Dental
 - Short-term disability insurance
 - Long-term disability insurance
- Retirement Plan Participation
 - 3% Company Match
- Two Weeks PTO
- 15% Profit Sharing Eligibility
- 15% Management By Objectives (MBO) Bonus Plan Eligibility
- Desktop/Laptop Computer as determined to meet the needs of the role
 - Related office equipment is assumed
